INSPECTIONS FOR WILSON COUNTY

APPENDIX A

The following fees are hereby established by Wilson County for obtaining fire permits through Wilson County Fire Marshal's Office. Acceptable forms of payment are check (made out to Wilson County), cash or credit card. Fees will be paid prior to the start of the process for which the fee is charged. All fees paid to the Wilson County Fire Marshal's Prevention Office are **non-refundable**.

It may be difficult to calculate total permit fees. It is best to call the Wilson County Fire Marshal's Office, to obtain the exact permit fee when scheduling an appointment to submit plans. All permit fees paid are **non-refundable**, so accuracy is critical!

The total fee for commercial building permits is made up from **two** separate fees: the fire code review fee for the fire permit, and fire code inspection fee to include the final inspection and Certificate of Occupancy fee if applicable.

Plan Review Fee*

This fee is for the review of submitted building plans for comparison against the adopted Building and Fire Codes to ensure compliance with the fire protection aspects of the proposed building(s). The process includes documentation and review comments where required.

Fire Code Inspection Fee*

The fee is for processing approved building plans and will be paid at the time of plans submission. The process includes issuing the fire permits and a minimum of three construction site visits and/or inspections.

**** For projects that are built-to-suit, the base fee for plan review is \$100.00 Min.**

FIRE SERVICE FEES

NEW CONSTRUCTION OR SUBSTANTIAL RENOVATIONS

Substantial renovation is greater than 50% of the building being remodeled or \$50,000 in cost.

OTHER COMMERCIAL/PUBLIC ACCESS BUILDING PERMITS AND FEES

- a. Public School Discount: **Total Permit Fee (less) 10%*** - *New public school construction projects will receive a 10% discount. Renovations, alterations, and modifications will be charged regular fees. A discount is not applicable for the review and permitting of any fire protection system.*
*Payment must come directly from the school district to be eligible for discount.

- b. Final Inspection and Certificate of Occupancy Fee: **\$150.00** – *This fee is for the final inspection of each completed building, processing and issuance of the Certificate of Occupancy.*

Conditional Certificate of Occupancy (CCO):

\$300.00

If circumstances warrant, the Prevention Office may grant limited use of a structure or portion of a building under permit, provided the area has been inspected and found to be following the adopted Fire and Building Codes. A written request (accompanied by a floor plan drawing) must be submitted by the contractor or the owner's representative indicating the area of the building requested to be occupied. All required fire protection systems, as indicated on the original building permit, must be fully operational and tested. This fee must accompany the written request. This CCO is valid for 90 days, and a final Certificate of Occupancy must be obtained within this 90-day period.

Temporary Structure Permits:

Less than 750 sq. ft. = \$75.00*

More than 750 sq. ft. = \$75.00 + \$.025 sq. ft.

This fee is for registration and inspection of temporary structures (tents, air supported structures, canopies, construction trailers, etc.). Valid up to 365 days (1 yr.) as determined by the code official. *(No permits required for tents and membrane structures under 400 sq.ft. as defined in Section 105.6.24 in the adopted fire code. *)*

Modular/Mobile Structure Installation Permit:

\$525.00

This fee is for the installation of a mobile or modular structure that will be used for commercial or public access purposes. It will include the plan review of the structure and inspection after installation to ensure the structure meets the intent of the adopted Fire Code. This is for mobile/modular structures that will be used for greater than 365 days (1 yr.).

Site Preparation and Foundation Permit:

\$500.00

This permit is for "phased" construction projects, or where the construction timeline requires immediate start of construction before a building permit can be obtained. This allows the contractor to begin site clearing and preparation, as well as form, rough-in, and pour foundation prior to the issuance of a building permit. **BECAUSE THIS IS A SPECIAL PERMIT, THE COST OF THIS CONSTRUCTION WILL NOT BE DEDUCTED FROM THE OVERALL BUILDING CONSTRUCTION COSTS.** Permit expires in 180 days if work has not commenced.

EXPEDITED PLAN REVIEW/OUTSIDE 3RD PARTY PLAN REVIEWS

3rd Party Plan Reviews

Actual 3rd party fee + WCESD1 permit/inspection fee

If a plan review is needed within 10 business days or if a proposed building/project contains a high-hazard occupancy, contains a storage area for hazardous materials or aerosol products, or has in-rack/high piled storage, the plans require an outside-3rd party plan review. Plans of this nature must be coordinated with the Prevention Office as this ensures we can track who is reviewing the project, the dates the plans were submitted to the outside reviewer, and the date we receive the plans back for permitting. All outside-3rd party plan reviews must be conducted by an agency from the WCESD1 approved vendor list in order to ensure they have the proper equipment and are capable of submitting plans and comments back to us in the approved format. All 3rd party fees must be paid directly to the vendor. Wilson County ESD1 will collect the processing and permit/inspection fee during the project coordination meeting.
