### Effective Tax Rate (No New Taxes) La Vernia City

The effective tax rate enables the public to evaluate the relationship between taxes for the prior year and for the current year based on a tax rate that would produce the same amount of taxes (no new taxes) if applied to the same properties that are taxed in both years. When appraisal values increase, the effective tax rate should decrease.

### Rollback Tax Rate La Vernia City

The rollback tax rate is split into two separate rates:

1. **Maintenance and Operations (M&O):** The M&O portion is the tax rate that is needed to raise the same amount of taxes that the taxing unit levied in the prior year plus eight percent. This rate accounts for such things as salaries, utilities and day-to-day operations.
2. **Debt:** The debt tax rate includes the debt service necessary to pay the taxing unit's debt payments in the coming year. This rate accounts for principal and interest on bonds and other debt secured by property tax revenue

The rollback tax rate for a county is the sum of the rollback tax rates calculated for each type of tax the county levies. In most cases the rollback tax rate exceeds the effective tax rate, but occasionally decreases in a taxing unit's debt service will cause the effective tax rate to be higher than the rollback tax rate.

- \*Notice & Hearing Limit Rate: This is the highest tax rate that may be adopted without notices and a public hearing. It is the lower of the rollback tax rate or the effective tax rate.
- School Districts: The school tax rate limit is \$1.50 for M&O, plus \$0.50 for 'New' debt plus a rate for 'Old' debt. 'Old' debt is debt authorized to be issued at an election held on or before April 1, 1991, and issued before September 1, 1992. All other debt is 'New' debt.

**Tax Levy:** This is calculated by taking the adjusted taxable value (line 19 of Effective Tax Rate Worksheet), multiplying by the appropriate rate, such as the Effective Tax Rate and dividing by 100.

**For School Districts:** This is calculated by taking the adjusted taxable value (line 34 of the Rollback Tax Rate Worksheet), multiplying by the appropriate rate, dividing by 100 and then adding this year's frozen tax levy on homesteads of the elderly.

**Additional Levy Last Year:** This is calculated by taking Last Year's taxable value (line 3 of Effective Tax Rate Worksheet), multiplying by Last Year's tax rate (line 4 of Effective Tax Rate Worksheet) and dividing by 100.

**For School Districts:** This is calculated by taking Last Year's taxable value, subtracting Last Year's taxable value for the elderly, multiplying by Last Year's tax rate, dividing by 100 and adding Last Year's tax ceiling.

**Additional Levy This Year:** This is calculated by taking the current adjusted taxable value, multiplying by the Effective Tax Rate and dividing by 100.

**For School Districts:** This is calculated by taking the adjusted taxable value (line 34 of the Rollback Tax Rate Worksheet), multiplying by the Effective Tax Rate, dividing by 100 and adding This Year's tax ceiling.

**COUNTIES ONLY:** All figures in this worksheet include ALL County Funds. Tax Levy amounts are the sum of each Fund's Taxable Value X each Fund's Tax Rate.

## 2018 Property Tax Rates in La Vernia City

This notice concerns 2018 property tax rates for La Vernia City. It presents information about three tax rates. Last year's tax rate is the actual rate the taxing unit used to determine property taxes last year. This year's *effective* tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's *rollback* tax rate is the highest tax rate the taxing unit can set before taxpayers can start tax rollback procedures. In each case these rates are found by dividing the total amount of taxes by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per \$100 of property value.

### Last year's tax rate:

Last year's operating taxes	\$197,855
Last year's debt taxes	\$18,745
Last year's total taxes	\$216,600
Last year's tax base	\$108,354,084
Last year's total tax rate	0.199900/\$100

### This year's effective tax rate:

Last year's adjusted taxes (after subtracting taxes on lost property)	\$216,611
÷ This year's adjusted tax base (after subtracting value of new property)	\$111,487,512
= This year's effective tax rate	0.194200/\$100

### This year's rollback tax rate:

Last year's adjusted operating taxes (after subtracting taxes on lost property and adjusting for any transferred function, tax increment financing, state criminal justice mandate and/or enhanced indigent health care expenditures)	\$363,719
÷ This year's adjusted tax base	\$111,487,512
= This year's effective operating rate	0.326200/\$100
× 1.08 = this year's maximum operating rate	0.352200/\$100
+ This year's debt rate	0.000000/\$100
= This year's rollback rate	0.352200/\$100

A hospital district or city that collects the additional sales tax to reduce property taxes, including one that collects the tax for the first time this year, must insert the following lines:

-Sales tax adjustment rate	0.147300/\$100
=Rollback tax rate	0.204900/\$100

## Statement of Increase/Decrease

If La Vernia City adopts a 2018 tax rate equal to the effective tax rate of 0.194200 per \$100 of value, taxes would increase compared to 2017 taxes by \$ 1,498.

## Schedule C - Expected Revenue from Additional Sales Tax

(For hospital districts, cities and counties with additional sales tax to reduce property taxes)

In calculating its effective and rollback tax rates, the unit estimated that it will receive \$ 165,854 in additional sales and use tax revenues. **For County:** The county has excluded any amount that is or will be distributed for economic development grants from this amount of expected sales tax revenue.
